

Healthy Eating

Balance Your Blood Sugar Levels

Your blood sugar levels will rise and fall all day but ideally stay with the normal limits. Try to limit sugar, refined carbs and caffeine.

Choose Your Drinks Wisely

The recommendations are to drink 6-8 glasses of water per day, 2-3 caffeinated drinks and 1-2 units of alcohol per day. Moderation is key!

Consume A Balanced Diet

Carbs

Fats

Protein

Fruit & Veg

Consuming a diet that consists of complex carbohydrates, fats, protein and fruit & vegetables will help to maintain overall wellbeing
